

## Press Release

# Hemex announces new partnership with QualityKick

**HEMEX is delighted to announce our exciting new partnership with QualityKick. A compliant, cloud-based, and pre-validated solution for Quality Management in Life Sciences. This partnership enables us to provide healthcare start-ups with a complete range of packages to ensure no Quality Management System gets left behind.**

- **Flexible QMS packages** and support available for start-ups to suit specific requirements.
- **Affordable and compliant eQMS platform** which is vital as most of us continue to work from home.
- **Free of charge consultation** to ensure we can offer exactly what Start-ups need for their QMS as every company is unique.

---

**Basel, Switzerland, 22 October 2020** – HEMEX strongly believes in the importance of embracing **quality** and we are proud to offer our new range of complete QMS packages. Our collaboration with QualityKick allows us to complete our QMS offering and give start-ups the opportunity to benefit from their very own state-of-the-art Cloud-based eQMS system.

The range of packages on offer will allow start-ups to find the optimal solution that works for them. We even offer a free of charge initial meeting to find the best tailored solution to ensure each and every customer can benefit in the best possible way.

The QualityKick eQMS platform is unique, affordable, and regulated. It offers great advantages such as easy document management, an employee training platform, and is compliant with GxP and multiple ISO's to ensure the company is audit ready.

Purchasing QualityKick through HEMEX will enable start-ups to benefit from a special discounted implementation fee. All training and onboarding will be done by HEMEX. The low, affordable monthly cost will enable everyone to start early with a good Quality Management System and **Expand, Embrace** and **Ensure** quality as each and every start-up grows.

«HEMEX has the clear ambition to be a full-service bench-to-market provider for the Life Science industry. In the current challenging environment, new tools are needed to support our clients, which is why we are extremely pleased about this cooperation with QualityKick. In the coming weeks, we will further roll out solutions that will enable our start-ups to bring innovative therapies to the market», said Pascal Winnen, CEO of HEMEX.

«QualityKick is a solution which is being used worldwide by life science companies, big and small, to help them manage their quality system efficiently in a digital way while complying with the relevant regulations like GxP and ISO 13485. The collaboration with HEMEX will allow us to further expand our customer base in Switzerland which makes this partnership very important for us», said Robert Sallo, Business Development Manager at Quality Kick.

We are proud to welcome the QualityKick team as our newest partner as we continue to grow and serve new Life Science businesses with the expertise and knowledge they need to succeed.

Get in touch with us today to find out more on our range of exciting new packages!

**About QualityKick**

QualityKick is the compliant, cloud-based, and pre-validated solution for Quality Management in Life Science. QualityKick brings quality management best practices to Pharma, Biotech and Medical Device companies worldwide, streamlining how users manage their quality processes in a compliant way. With QualityKick, businesses in regulated sectors safeguard their quality and increase productivity through a centrally governed, secure, and easy to use platform. Founded in Antwerp (Belgium) under the QbD group, QualityKick has physical presence in 6 different countries and 3 continents. It leveraged a large amount of combined quality management knowledge through the 250 consultants of QbD, to develop a cloud-based, validated, quality management solution.

**About HEMEX**

HEMEX was founded as a private investment and consulting company headquartered close to the Basel global life sciences hub. Our primary focus is to bring innovative drugs, medical devices, and in-vitro diagnostics to the market. We specialize in supporting early-stage start-ups, and we offer tailored solutions to accelerate projects into successful and sustainable businesses. Additionally, HEMEX helps and supports start-ups to find non-dilutive and dilutive funding. We are now gaining fast recognition, and this is partly because we are transforming the culture by seamlessly bridging the gap between investors and entrepreneurs.
